

Community Relations Policy

At Kinder Morgan, we believe our neighbors, governments and communities play an important role in how we conduct our business. We strive to build and maintain healthy relationships throughout the areas where we operate.

We believe in two-way engagement and dialogue with local stakeholders to build trust and foster collaboration. We engage with local communities by participating in activities such as:

- providing brochures, newsletters, and project updates;
- making safety and public awareness presentations;
- attending community events; and
- hosting community open houses.

Our commitments include the following:

- **Community Engagement** – We engage with communities, governments, and stakeholders in accordance with our core values of Integrity, Accountability, Safety, and Excellence.
- **Respect** – We treat everyone with respect and strive to understand community issues and help them understand ours.
- **Transparency and Responsiveness** – We strive to be transparent in our interactions and responsive to community questions and concerns.
- **Negotiate in Good Faith** – We negotiate with property owners in good faith for survey access and property rights to reach mutually acceptable agreements.
- **Training** – We provide our representatives the training to perform their jobs and interact positively and productively with the community.
- **Fairness** – We strive to treat affected parties fairly.
- **Responsible Construction** – We communicate with the community before, during, and after construction projects. We strive to preserve historic, cultural and community resources and will engage with first responders and participate in one-call programs to promote safe digging.

Kinder Morgan will continue to engage its leadership and resources to effectively fulfill the commitments above.
