This product is supplied as CARBOB meeting the applicable standards of the California Air Resources Board. This fuel does not comply with the standards for California gasoline without the addition of ethanol; this fuel is produced for blending with 10 vol% ethanol. Supplier assumes liability for meeting required property limits when fuel is tested by regulatory methods required.

This product certified to meet _____ octane when blended with 10 vol% ethanol.

(Check One) Variance Fuel: Yes No

Supplier is required to notify KM Customer Service Department 7 days prior to supplying ANY variance fuel.

We certify the above information to be correct

Authorized Signature _____ Date _____
