

HILAND CRUDE, LLC
Double H Pipeline

LOCAL and PROPORTIONAL TARIFF

RATES APPLYING ON THE TRANSPORTATION OF
CRUDE PETROLEUM FROM POINTS IN

MONTANA, NORTH DAKOTA and WYOMING

TO POINTS IN

MONTANA AND WYOMING

The Carrier will gather and/or transport crude petroleum from points in Montana, North Dakota and Wyoming to points in Wyoming, and for interstate transportation beyond, subject to the rules and regulations published in Carrier's F.E.R.C. No. 7 14.0 and successive issues thereof.

The rates in this tariff are expressed in U.S. cents per barrel of forty-two (42) United States gallons for pipeline transportation.

[W] Issued in compliance with 18 CFR § 341.3 ~~342.3, Indexing.~~

~~[C] Issued on less than thirty days' notice under authority of 18 §CFR 341.14 and §341.2, Special Permission. This tariff publication is conditionally accepted subject to refund pending a thirty-day review period.~~

ISSUED: May 27, 2025

EFFECTIVE: July 1, 2025

Hiland Crude, LLC, Double H Pipeline

F.E.R.C. Tariff No. 8.21.0

Exceptions to Carrier's Rules and Regulations tariff:

—— Except for barrels sourced from the Richland and Tioga Gathering system, from the net quantities determined for acceptance, a deduction of one quarter of 1% (0.25%) will be made at the Market Center Gathering System origin to cover evaporation and loss during transportation. For Albin Station and Tioga Station barrels sourced from other receipts at the stations, from the net quantities determined for acceptance, a deduction of one quarter of 1% (0.25%) will be made at the Double H origin to cover evaporation and loss during transportation.

Note 1: Committed Shipper rates from the applicable ORIGIN to the applicable DESTINATION are available to each shipper that, during the Open Seasons signed a Throughput and Deficiency Agreement for transportation of crude oil under a Joint Tariff rate or a Proportional rate. For purposes of this note, "Open Seasons" means the Local and Proportional rate open season occurring in 2010, the Joint Tariff and Proportional rate open seasons occurring in 2012, and the Joint Tariff rate open season commencing in late 2014, held by Hiland Crude, LLC.

Note 2: Additional discount of [U] 50.00 cents (\$.50) per barrel applies if Hiland Crude is gathering $\geq 8,000$ barrels per day in the following gathering areas and the shipper is tendering those barrels for movement under the Double H Pony Express Pipeline Joint Tariff.

—— Tioga Gathering System for shipment from Tioga Station to Hiland Seiler Station

—— Epping Gathering system for shipment to Hiland Seiler Station

—— East Camp Creek Gathering System for shipment to Hiland Seiler Station

—— Richland County Gathering System for shipment to Hiland Seiler Station

Note 3: No gathering is performed under this tariff. Shippers are liable for the rates and fees including the pipeline loss allowance, referred to in Hiland Crude Tariffs 3.19.0 and 4.17.0 and successive issues thereof.

Note 4: No gathering is performed under this tariff. Shippers are liable for the gathering charge referred to in Hiland Crude, LLC Tariff No. 5.42.0 and successive issues thereof.

Note 5: If a shipper qualifies for discount rates according to the Hiland Crude Tariffs mentioned in Note 3, these discount rates will apply.

Terminals Fees:

A pump over fee of [U] twenty-one and eighty-one hundredths cent (\$0.2181) per barrel will apply at Guernsey Station.

Exceptions to Carrier's Rules and Regulations tariff:

From the net quantities determined for acceptance, a deduction of one quarter of 1% (0.25%) will be made at Origin to cover evaporation and loss during transportation

Note 1: Committed Shipper rates from the applicable ORIGIN to the applicable DESTINATION are available to each shipper that, during the Local open season commencing on March 12, 2014, held by Hiland Crude, LLC, signed a Throughput and Deficiency Agreement for transportation of crude oil.

Note 2: When any portion of Carrier's line is under proration, Committed Shippers entitled to the Committed Rates under this tariff may elect to obtain priority capacity on the prorated line segment, whereby their contract volumes on the prorated line segment will not be subject to proration (except in certain limited situations set forth in Carrier's Rules and Regulations tariff by paying [U] one cent (\$.01) per barrel above the prevailing uncommitted rate. This election must be made in accordance with Carrier's Rules and Regulations tariff.

Note 3: If between March 19, 2020 and May 31, 2020 a shipper has executed a form Volume Incentive Program Throughput and Deficiency Agreement with a minimum volume commitment of 10,000 BPD or greater and a term of five or seven years, the Volume Incentive Rates, which are discounted rates, will be available to the shipper. If the total volume delivered for such a shipper in a given month is less than or equal to the Volume Tier in which the shipper's minimum volume commitment falls, all delivered volumes for such month will be assessed the Volume Incentive Rate for that Volume Tier and applicable term (5 or 7 years as indicated in the shipper's Volume Incentive Program Throughput and
